

These sessions will provide integral presentations connecting the bench to clinical practice - planned from the feedback received from past Congress attendees.

Discovery to Practice in Oncology

ISONG 2018 World Congress Saturday, October 27, 2018

**Stacy Hines-Dowell, DNP,
AGN-BC**
Doctor of Nursing Practice
Advance Genetics Nurse
Department of Oncology
St. Jude Children's Research
Hospital
Memphis, Tennessee USA

Selvi Palaniappan, MS, CGC
Certified Genetic Counselor and
Oncology Genetic Specialist
Ambry Genetics
Atlanta, Georgia USA

Ahmad Tarhini, MD, PhD
Director, Melanoma & Skin
Cancer Program
Director, Center for
Immuno-Oncology Research
Cleveland Clinic
Taussig Cancer Institute
Cleveland, Ohio USA

Summary

Since the completion of *The Human Genome Project* in 2003, perhaps the greatest clinical impact has been in cancer research and care. The identification of germline genetic variations for cancer susceptibility has vastly improved individual risk assessment methodologies; moreover, the identification of somatic gene mutations responsible for cancer cell transformation has led to the development of ground-breaking therapies. The presenters at this symposium will discuss the use of cancer genomics in current clinical care.

Symposia Sessions planned on Attendee Feedback

New for this program year! We will have three expert symposia on evolving topics in genetic nursing research and clinical care. **These presentations will provide integral presentations connecting the bench to clinical practice.** The three symposia are:

- *Discovery to Practice in Metabolics*
- *Discover to Practice in Oncology* (outlined above)
- *Discovery to Practice in Pharmacogenomics*

The symposia will be offered twice during the program to allow those with multiple interests the opportunity to attend a second session. The three Symposia sessions will be offered on Saturday.

Contact Hours

ISONG and ANA-NY are collaborating to provide this learning activity. Nurse participants completing the activity and the evaluation tool will receive continuing nursing education contact hours and pharma credits (number of pharma credits to be determined.) The Northeast Multi-State Division is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.
